

Nursery Information

During the worship service, our nursery attendant and volunteer work together to provide excellent care for infants and toddlers each week of the year. Parents are welcome to leave their Infants and/or toddlers in our care, or may bring them to the nursery from the worship service at any time (for a feeding, diaper change, etc.). Of course, parents/guardians are always welcome to remain with their infant/toddler in the nursery, if they would prefer to do so. If you would prefer to be called to the nursery if a diaper change is necessary, please let us know. Otherwise, we'll assume that you would like us to take care of that.
